DEFENSE INTELLIGENCE AGENCY

WASHINGTON, D.C. 20301

23 July 1971

SUBJECT: Agenda for COMIREX MC&G Working Group Meeting, 10 August 1971

TO: COMIREX MC&G Working Group Members

1. A MCGWG meeting is scheduled at 1300 - 1530 hours on 10 August 1971, in Room 2D921 Pentagon.

2. Agenda items follow:

25X1A

[Redacted]

b. Predictions of 12" SI Coverage.

For purposes of planning in the MCGWG community, NRO is requested to present predictions of accumulated photo coverage after each 12" mapping camera mission for at least 10 missions as planned by current NRO scheduling. Requirement areas should be essentially worldwide, excluding ice areas, totaling 50.4 million square statute miles as set forth in MCGWG meeting of 12 May 1971. Worldwide areas should be treated as a total; however, a separate breakout of anticipated coverage of bad weather areas is also needed. Initial or subsequent figures should reflect the impact of collection by a system of 4 basic priorities changed to some extent for each mission and incorporating major changes at least annually. It is understood NRO has already begun this type of prediction. But that results are best provided on a step by step basis. On 10 August NRO will provide such information as available and it will be possible to discuss detail planning and parameters as well as dates about the first part of September for providing specific information.

3. Only TKH SAO clearance will be required for personnel attending. Please pass clearances to DIA SAO at least two days prior to the scheduled meeting. Anyone entering the DIA area on the first floor E ring can proceed to the conference room 2D921 through the back stairs in the DIA area. If personnel wish to enter the conference area through the JCS area names of such personnel must be passed to Miss Sellaro, OX5-4530, by 1630 hours on 6 August 1971.
